**Re: Lifting of the import suspension on day-old poultry and poultry meat etc. from  
Republic of Korea**

Dear Dr. Chang,

Thank you for the report on avian influenza cases in your country.  
I am pleased to inform you that the import suspension on day-old poultry and poultry meat etc. from Republic of Korea is lifted on 1 April, 2010 as a result of our examination on your report. The poultry meat etc. which is derived from poultry slaughtered (or laid, in case of eggs) and the day-old poultry hatched in Republic of Korea on and after 1 April, 2010 are eligible to be exported to Japan.

Thank you for your cooperation on this matter.

Sincerely yours,

  
Toshio KAWASHIMA, D.V.M.  
Director of Animal Health Division
