Once upon a time La Tropicale

In the heat of the summer 1976 out of the back-office of a small shop in paris the first sorbets were created.

Made of fresh fruit such as coconuts or lime they had a delicate flavour unknown to most parisiens

Out of this immediate success a soon to be renowned icecream and sorbet maker was born

In addition an ice cream and sorbet parlour was opened in one of the lively areas of paris

Since those early days La Tropicale have been mixing French culinary traditions with various flavours from the Orient and the Mediterranean to create ice creams and sorbets to delight gourmet palates in search of delicate and natural flavours.
