Welcome to the German Pavilion at MODERN BAKERY MOSCOW 2012!

MODERN BAKERY MOSCOW 2012
13 - 15 June 2012
Moscow, Russia

Welcome to the German Pavilion

For the German manufacturers of bakery machines, confectionery machines and buns, Russia has been the most important export market for years now. Most of them can look back on a long tradition of doing business in Russia and are represented by agencies or subsidiaries. The Russian market for baked products and confectionery is still growing, in particular in the high quality product segments and the demand for high-tech and customized solutions is still high.

In 2011 German deliveries of bakery and confectionery machines to Russia increased by 22 percent and amounted to 75 million Euro. In 2012 this positive development seems to continue.
